

ATHENS – Final Report

Month/Year: Marec, 2025

Code and name of the course: UPM148: Fundamentals of Process Simulation in Chemical Engineering

Host University: Universidad Politecnica de Madrid

Course Language: English

Dates: From 15/03/2025 to 22/03/2025

Student: Vanesa Virsiková

e-mail: virsikov@vscht.cz

Transport:

I flew to Madrid from Vienna (and back). To get to the airport I used RegioJet, train and bus. It cost approximately 180 Euros. Local transportation in Madrid is pretty good. I paid 8 Euros including the travel card.

Accommodation:

We shared an apartment with other two students. It was 15 minutes from the university.

Food:

We tried to cook by ourselves. The groceries was a little more expensive than in Czech republic.

Scholarship – the amount you have received:

9700 CZK

Please state in percentage: The scholarship covered **70** % of my expenses.

Course schedule (how it was organised):

We had courses from 8:30 AM and the length varied, but usually till 5 PM. The final exam was canceled due to flood warning. We had assignment.

Spare time:

We tried to chill in the apartment or explore the local neighbourhood / city center. Also visited Toledo.

Overall Evaluation:

It was very nice experience. Met new people. Scholarship helped a lot. Maybe a little more organization on the side of the host university.

!!Obligatory Enclosure: A4 POSTER (preferably with photos*)
